pediatools ™  
**MONKEY**™

The most comprehensive  
total hand exerciser  
for kids

Thank you for giving this monkey a new home! In order to keep you and your monkey safe and happy, please read all instructions. ALWAYS STORE YOUR PEDIATOOLS MONKEY IN HIS POUCH. The great stuff he's made of has mineral oil in it, so it should not be used or stored with paper, vinyl, or latex. He will leave his mark if you leave him alone where he shouldn't be, so put him away when he's not in your hand. Every now and then your monkey may need a bath, so keep him clean by washing him with soap and water. Dry him off and coat him with a little powder so he doesn't feel sticky. Remember to let him sleep in the pouch when you aren't using him! Don't ever put your monkey in your mouth; he doesn't like it! Even though your monkey is a lot of fun, he is not a toy, and kids should not use without direct adult supervision. You should always ask your doctor or healthcare professional before you start a new exercise program, because they are smart and want you to be as healthy as you can be. Have fun!

Here are some ideas to get you started...  
For other "monkey business", visit [www.pediatools.com](http://www.pediatools.com)

### **Squeeze the monkey**

Place your fingers and thumb in the holes, either close to the ends of your fingers, or down toward your knuckles. Squeeze your hand and make a fist, then open your hand and fingers as big as you can.

### **Monkey see-Monkey do**

Place all or some of your fingers and thumb in the holes. See how many different faces the Monkey can make. Monkey likes to wiggle his ears, crinkle his nose and stick out his tongue!
